Profile

Junior .NET developer in the final phase of my studies at Nackademin.
I have hands-on experience building backend-focused applications using C# and .NET, with exposure to APIs, authentication, real-time communication, and automated testing.

I come from a professional background outside of tech, which has given me a strong work ethic, high sense of responsibility and solid communication skills.

Skills

Technical skills

- C#
- .NET / ASP.NET Core (Web API)
- REST APIs
- Git/Fork (branching, pull requests)
- Automated testing (xUnit, basic Moq)
- Basic frontend: HTML, CSS, JavaScript
- Azure DevOps (CI/CD - academic projects)
- MVC (basic)
- SignalR (real-time communication)
- Authentication & authorization (JWT - academic projects)

Professional strengths

- Communication and teamwork
- Responsibility and reliability
- Structured work approach
- Customer-focus mindset

Education

Nackademin
August 2024 - May 2026, Solna

Program focused on the .NET platform, including C#, DevOps, frontend development, and database technologies.

NTI-skolan
October 2023 - May 2024, Stockholm/Distance

Mathematics, Swedish, and Programming 1 (C#) in preparation for higher education.

Upplands-Bro gymnasiet / graduated
August 2015 - June 2018, Upplands-Bro

Education where I studied to become a professional driver.

Mälargymnasiet
August 2012 - May 2015, Järfälla

Education where I studied social science combined with behavioral orientation.

Experience

Internship (Software Developer) at Digital Engine
November 2025 – April 2026

Worked on Office Assistant, modernizing legacy Visual Basic to C# and extending existing functionality. Built xUnit tests and worked with JSON configurations and MongoDB. Contributed through documentation and pair programming.

Hellman Åkeri AB / Tipper truck driver (Drawbar Trailer)
June 2022 – June 2024

Operated tipper truck with drawbar trailer for Märsta Förenade, assigned to Heidelberg Materials. Transported materials to construction projects and private customers with a strong focus on customer service and safety.

Özpa Åkeri AB/ Tipper truck driver
October 2019 – June 2022

Worked primarily on the Stockholm Bypass Project, transporting excavation materials to large-scale infrastructure projects.

Norrorts åkeri/ Tipper truck driver
September 2018 - May 2019, Vallentuna

Transported excavation materials using truck and trailer for construction projects and private clients.
